Dear Mr. Vargot

In response to the Office Communication mailed on 02/26/2003 and the recommendation made by the Examining Office.

This Applicant elects to retain, for prosecution, the Original Specification and Claims filed on 10/19/2001.

Applicant have had submitted at least (SIX) apparatus variations based on the Processes of Patent No. 6,334,734.

The Six novel Apparatus were incorporated in three CIP Applications; Application No. 09/634,430, Application No. 09/880,780 and Application No. 09/982,044.

Although these six Apparatus can utilize the Process of Patent No. 6,334,734, they have distinct claimed differences.

However, to simplify, expedite and reduce cost of submitting each Claim individually, this Applicant elected to combine each two similar Claimed Apparatus within one CIP Application.

Applicant hopes this will satisfy the Examining Office Rules. Thank you
